Education

JK Lakshmipat University

Bachelor of Science in Computer Science (CGPA: 8.924)

Aug. 2023 – May 2027

Jaipur, Rajasthan

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Business Models
- Computer Architecture
- Computer Networks
- Database Management
- Cyber-security
- Cloud Computing

Experience

IIT Gandhinagar

Semester Exchange Student

Aug 2024 – Dec 2024

Gandhinagar, India

- Selected for a competitive semester exchange program; achieved an SGPA of 8.25.
- Completed coursework in Computer Networks and Network Security, strengthening system-level and security fundamentals.
- Developed leadership, adaptability, and cross-cultural communication skills through collaborative academic environment.
- Pursued personal development by learning French and engaging in interdisciplinary learning.

JK Lakshmipat University

Teaching Assistant – Data Structures & Algorithms & C Programming

Jan-May2025 & Jan-May 2026

Jaipur, India

- Mentored 100+ undergraduate students in Data Structures, Algorithms, C Programming, and Competitive Programming, improving problem-solving and coding efficiency.
- Conducted coding contests and up-solving sessions, strengthening algorithmic thinking and solution optimization skills.
- Guided students on core programming concepts including memory management, pointers, and time complexity analysis.
- Provided hands-on debugging support, code reviews, and best practices for writing scalable and efficient code.
- Collaborated with faculty to design structured learning modules and evaluate student performance.
- Enhanced communication, leadership, and mentorship skills by simplifying complex technical concepts for junior students.

Do Points Marketing Pvt. Ltd. (Sunday Tech)

Project Management Intern

May 2025 – July 2025

Mumbai, India

- Coordinated with cross-functional teams including developers, designers, and stakeholders to ensure smooth project execution.
- Supported Agile sprint planning, backlog prioritization, and task tracking using Jira & Azure .
- Prepared detailed project documentation, reports, and timelines to improve workflow transparency.
- Facilitated client communication and ensured timely delivery of milestones, enhancing stakeholder satisfaction.
- Applied product thinking to understand user requirements and align deliverables with business goals.

Projects

Secure ATM System | C++, Socket Programming, SQLite, Encryption | GitHub

- Developed a secure client-server ATM system with encrypted communication.
- Implemented multi-layer authentication and data protection mechanisms.
- Integrated SQLite for secure transaction and user data management.

JKU Ride Sharing Platform | React.js, Node.js, PostgreSQL, REST APIs | GitHub

- Built a full-stack ride-sharing platform with route-based matching.
- Developed responsive frontend and REST APIs for seamless communication.
- Implemented authentication, ride creation, and dynamic suggestions.

Social Feed Optimization | C++, DSA, Graphs | GitHub

- Designed a feed ranking algorithm based on user interactions and preferences.
- Built scoring model using recency, popularity, and engagement metrics.
- Applied graph structures for personalized content delivery.

Technical Skills

Languages: C, Python, JavaScript, SQL (PostgreSQL), HTML, CSS

Frameworks & Libraries: React.js, Node.js, Pandas, NumPy, Scikit-learn

Web & Development: REST APIs, Responsive UI Design, Frontend Development, Full-Stack Development

Tools & Platforms: Git, GitHub, Jira, Docker, Azure, Kali Linux, Figma, Excel

Concepts: Blockchain, DBMS, Operating Systems, Agile Methodology

Leadership / Extracurricular

Product Skills: Product Thinking, User-Centric Design, Stakeholder Management, A/B Testing, Product Metrics, Responsive Design, Wireframing (Figma), REST APIs

Execution: Product Management, Task Prioritization, Cross-Functional Collaboration

Analytical: Problem Solving, Data-Driven Decision Making, Optimization

Professional: Communication, Leadership, Adaptability, Time Management

Proof of Work: Certifications (Google Drive)
